①

Positionner le tasseau horizontalement sur votre mur à l'aide du niveau à bulle à la hauteur voulue, puis marquer l'emplacement des trous à l'aide du crayon.

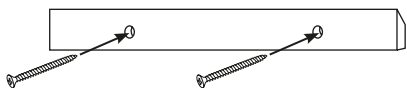

Place the cleat horizontally on your wall at the desired height using the spirit level, then mark the location of the holes with the pencil.

②

Percer le mur aux emplacements marqués. Insérer les chevilles adaptées au type de mur.

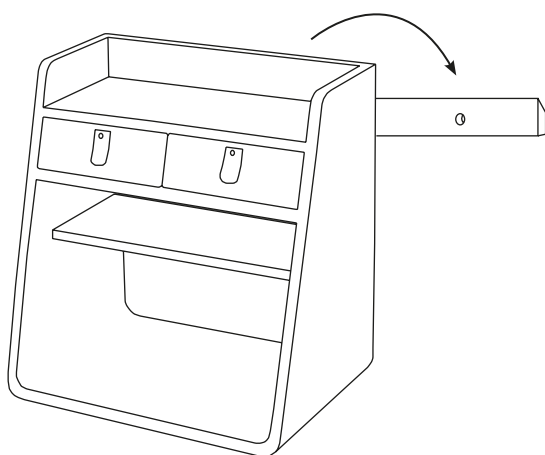

Drill the wall at the marked places. Insert the wall plugs best suited to the wall.

③

Fixer le tasseau au mur avec les vis.

Fix the cleat to the wall with the screws.

④

Suspendre le chevet sur le tasseau.

Hang the floating nightstand on the cleat.
